LOW MINTAGE PROOF SETS OF THE 1950's

In early September, a long-time customer sold us several dozen U.S. Proof Sets dated 1952, 1953 and 1954 — ALL IN THEIR ORIGINAL BOX OF ISSUE! He had obtained these sets directly from the Philadelphia Mint and kept them undisturbed in his bank vault for the last 14 years. They are beautiful!

We think these Proof Sets are good buys. Why? Because of their extremely *low mintages!* During the 1950's, U.S. Proof Sets were counted by the thousands. During the decade of the 1970's, U.S. Proof Set mintages are counted in the millions! Imagine the demand for the early 1950's Proof Sets when collectors decide they want to complete their collections!

For collecting, for investing, or for gifts, U.S. Proof Sets of the 1950's — featuring mintages in the thousands — in original box of issue — are the perfect purchase. And remember. Paramount's seven day return privilege means you risk nothing. Order your U.S. Proof Sets today.

1952 Proof Set (Mintage 81,980) $105.00

1953 Proof Set (Mintage 128,800) $70.00

1954 Proof Set (Mintage 233,300) $37.00

THE EXTREMELY RARE 1892-S MORGAN DOLLAR

— A Virtually Perfect Specimen Equal In Quality To Any Other Known 1892-S

The 1892-S Morgan Dollar is one of the most puzzling pieces in the entire silver dollar series. Although 1.2 million specimens were reportedly struck, *virtually all known* examples grade only Good to Very Fine. Extremely Fine and Almost Uncirculated examples are very scarce while truly Mint State 1892-S's are practically unheard of!

It has been over 40 years since the old 90% pure silver dollars were struck by our government. Since then, millions upon millions of silver dollars have been released from the Treasury vaults. In recent years, the G.S.A. has sold several million old Carson City Dollars at premium prices. These old "CC" Dollars represented the last silver dollars still owned by our government. A few years ago, a private collection of 400,000 silver dollars was dispersed — the Redfield Collection.

We tell you this because, to our knowledge, there were *no* mint state 1892-S silver dollars in *any* of these holdings. If there were a quantity of MS-60 or MS-65 1892-S's located *anywhere*, one would think that some would have found their way into the numismatic market by now.

The specimen we offer is actually superior to the outstanding and brilliant specimen we sold in our 1975 Davies-Niewoehner Sale. The strike is extremely bold and the toning is an exquisite display of multicolored iridescence. This 1892-S would certainly be the *showpiece* of any advanced set of silver dollars!

The opportunity to acquire a virtually flawless specimen of this date is, indeed, very rare. If you are a collector (or investor) looking for only the finest, this coin is waiting for you!

1892-S Morgan Dollar, Mint State 65++, Beautiful Iridescent Toning $29,500.00

COLLECTOR SPECIAL

SAVE $125.00 ON A TRIO OF THE MOST EXCITING LOW MINTAGE COINS EVER ISSUED

Gold • Gilt • Silver!

If you like the sound of low mintage, high value coins struck in luminous gold, exquisite gilt and elegant silver, read on! We've just the trio of coins you've been waiting for . . . and at an incredible savings of $125.00! That's right . . . purchase all three and that's what you save!

In 1974 the Cook Islands issued these three magnificent coins — a proof $100 gold coin, $50 gilt silver coin and a $50 silver coin — to commemorate the birthdate of Sir Winston Churchill, the world's most influential statesman. Indeed, their mintages and sizes are as impressive as their beauty.

The extraordinary 58 mm $50 silver coin holds an immense 1,500 grains of solid sterling silver and bears a low, low mintage of only 2,502! The $50 gilt coin is also 58 mm in diameter and is indistinguishable from solid gold coins. Indeed, you get top quality gold *and* solid sterling silver in one coin with an incredible mintage of a mere 2,002!

The $100 gold coin bears the lowest mintage of all — only 1,453 of these magnificent beauties exist in the entire world — and you can own one for your very own. Moreover, you get .49 Troy ounces of pure gold — twice as much as in most other modern issue gold coins! And at 27 mm this is a coin you'll be proud to display to your family and friends.

And because these three proof coins were struck at the prestigious Royal Australian Mint, you are assured of owning the highest quality coins available in the world today! And at a savings of $125.00!

No matter how you look at it, the 1974 Cook Islands gold, gilt and silver commemoratives are coins you can't afford *not* to own! Don't delay another day. At this price our supply can't last long.

Remember, low mintage coins with high precious metal content and great historical significance are what every collector looks for. Don't pass up this extraordinary opportunity to own one, two or all three of the world's most exciting and appealing modern coins — at an unbelievable savings! Order now.

- Silver Dollars — Silver Dollars have been among the most rapidly appreciating coins in recent years. In fact, Silver Dollars are the most widely collected denomination of U.S. coins. Paramount is the leading dealer of quality Silver Dollars. We carry a large inventory of dates at all times. Over the years, we have assisted many collectors in acquiring complete sets of silver dollars. All dollars in this program will grade Mint State 60 or better.
- Commemorative Coins — Commemorative coins are considered by many to be the most underrated of all U.S. coins. Mintages are extremely low when compared to other series. Prices, on the other hand, are very reasonable when you consider the mintages. Paramount always has a large selection of mint state commemoratives available. All commemorative coins in this program will grade a minimum of Mint State 60.
- Rare Date Gold Coins — A very specialized area primarily for the more serious investor or collector. Included are rare individual dates, beautiful and rare gold proofs, etc. These coins are generally available only to the investor selecting the $1000 (or higher) per month program. Truly rare and choice gold coins cannot be acquired for lesser amounts. Price appreciation for such coins has historically been very favorable. All rare date gold coins included in this plan will grade EF-40 or better.
- United States Type Coins — Type collecting is one of the more popular methods of collecting. This program involves the acquisition of a representative example of every U.S. coin design. Specific dates are not collected. This program can also include gold coins, if you desire. All type coins sent in this program will be in the highest possible condition.
- Specialized — Our specialized program is just that — specialized to fit your own personal desire and goals. We will gladly assist you in assembling a set of Indian Head cents, Shield nickels, Liberty nickels, Barber dimes — or whatever. Tell us specifically what you want in your portfolio and we will take it from there. Personal service to you is our objective with this and all our investment programs.
- Currency — Many believe the real popularity of rare currency collecting is still to come. Currency offers rarity, quality, and magnificent artistic beauty. Paramount has been dealing in this area for several years and is known for handling notes of the highest quality. Currency in this plan will generally be Uncirculated or Gem.
- General — The coins included in this program will be non-specified. For instance, you might receive rolls of Mint State Coins, Silver Dollars, Commemoratives, etc. In all likelihood, you will receive duplicates. Our staff will select only quality coins which we feel offer you potential growth. Both United States and Foreign coins will be included in this plan.

The First Ever Soviet Gold Coin

Soviet gold — brilliant, glittering gold, direct from the Soviet Union can now be yours!

We currently have a small quantity of choice uncirculated (Unc-65) 1923 Chervonetz (10 Rouble) gold coins available for immediate purchase! These coins have been stored in *sealed bags* in a bank vault in the Soviet Union since they were struck. Only recently have they seen the light of day! They are the *first* legal tender gold coins ever issued by the Soviet Union and as such, are in demand by collectors the world over.

The Chervonetz contains .2489 Troy ounces of .900 fine gold. A farmer sowing wheat is pictured on the obverse, the reverse features the hammer and sickle. **But here's the best part** — according to the standard reference work on world gold, *Gold Coins of the World* by Robert Friedberg, the 1923 Chervonetz has a value of $500 in uncirculated condition. *Our* price to you is only $395! That's more than 20% off its catalogue value *and* the coin you receive will be in *choice* uncirculated (Unc-65) condition!

Our supply of these exceptional coins is limited and orders will be filled as they are received. Order your Chervonetz — **NOW.**

Now You May Purchase A Complete 97-Piece Morgan Dollar Set and Take 90 Days To Pay For It!

That's right! These are the popular, high grade sets we have been offering for several months now. Included are *all dates and mints* in this ever popular series *except* for the excessively rare 1895-P. You'll receive the rare 1889-CC, 1893-S, 1894-P *and more* in this set!

Now you may purchase *all* 97 coins housed in three bookshelf albums for only $2575. That's an average price of just $26.55 per coin. In order to allow more people the opportunity of owning this set, we now offer a 90-day payment plan with *no interest charges*. Just send an initial payment of $700 followed by $625 in 30 days; $625 in 60 days and the final $625 in 90 days for a total payment of $2750. While you are paying for your set, it will be held in our fully insured vault. Upon receipt of the final $625 installment, your complete set will be immediately shipped to you. Naturally, if you decide to pay in full now, your collection will be shipped immediately.

All coins in these sets will grade a minimum of Very Good-8. Most will be better averaging Very Fine. When you consider that minimum grade sets (Good-Very Good) are currently *wholesaling* for $1800-$1900, we think you'll agree our sets are quite a bargain.

But don't delay. Prices for these coins have been rising steadily for months. If you wait, you will probably have to pay more!

Satisfaction Guaranteed!

GEM Quality $5.00 Red Seal STAR Notes: $27.50

Take a good look at the $5.00 note illustrated here. First of all, it's a Series 1953-A Legal Tender Note, identifiable by its *red* Treasury Seal and serial numbers. The U.S. Treasury ceased issuing this type of obligation many years ago, and is currently destroying them as they are received from banks across the nation. Today these Red Seals are scarce in New condition and growing increasingly valuable to collectors.

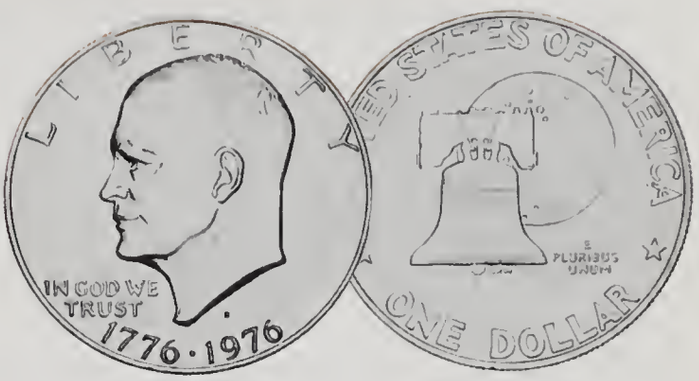
More important yet, notice the small five-pointed star preceding the serial number. It means this note was made specifically to replace a note of the same Series spoiled during the printing process — an error replacement note. And since only 5.6% of the total number of 1953-A notes issued were Stars, it also means that this Star Replacement Note is *18 times more rare than a regular note!*

At this very moment the Bureau of Engraving is experimenting with advanced *laser inspection equipment* to eliminate errors in currency production completely — and thus eliminate the need for Star notes! Imagine the tremendous new demand for Star Notes that will be generated when the Director of the Bureau of Engraving and Printing announces *no more will be produced.* Time is running out for the Star Note, and also for you to take advantage of these coveted collector's notes at today's reasonable prices.

Regular 1953-A $5.00 Legal Tender notes catalogue $20.00 Uncirculated, so we believe this far rarer *STAR* note in *GEM* condition is an outstanding value at only $27.50. Hurry, supply is limited — order *Now.*

1953-A $5.00 Star Note, GEM $27.50

Why Save Copper-Nickel When You Can Have SILVER?



Why save copper-nickel Bicentennial coinage as a reminder of this country's two-hundredth anniversary — just like millions and millions of other people — when you can forever remember this historic anniversary with United States Bicentennial dollars made of *silver?* The silver Bicentennial dollars *you* may own are in *proof* condition; brilliant and with a mirror surface, unlike the gouged, scraped, and dulled non-silver coins found in circulation. And, they are government sealed in their own individual clear, form fitting, hard plastic holders!

The Bicentennial silver dollars we offer were struck at the famous San Francisco Mint and are 40% silver. *None of these low mintage proof silver dollars were ever released into circulation!* But now *you* can add this desirable silver coinage to your collection for a remarkably low price — only $219 for a roll of twenty (20) pieces.

The last time we offered these popular silver dollars we immediately sold-out. Since then, it has taken our rare coin buyers several months to locate the small quantity we now offer. Who can say how long it may take us to locate an additional quantity? Why take the chance of receiving a *sold-out* by sending your order in late? Don't delay. Place your order *now!*

One Roll (20 Pieces) 1776-1976 Bicentennial Silver Dollars, Proof, Only $219.00

The Lowest Mintage Franklin

Now you can own the *lowest mintage* Franklin half dollar! This coin is, of course, the 1953 Philadelphia issue. Its low mintage of only 2.8 million has helped to make it one of the keys to the entire Franklin series! And while our small supply lasts, you may add an attractive Mint State 60 specimen to your collection for only $19.00.

Just twenty-five pieces are available — a very small number when considering that this list is mailed to thousands of collectors. So order soon. And remember, our conservative grading assures your complete satisfaction.

1953 Franklin Half Dollar, Mint State 60 ..... $19.00

This Coin Has Seen It All!

No other United States coin — copper, gold or silver — was ever issued for more years than the Liberty Head ten dollar gold piece. This coin was struck from 1838 through 1907, a span of eight decades and eighteen presidents. During its issuance, the United States literally "grew up"; gold was discovered in California, the Civil War occurred, Alaska acquired, the Indian Wars were fought, the battleship *Maine* destroyed and Teddy Roosevelt charged up San Juan Hill.

Unfortunately, countless millions of these historic coins are gone forever, either lost or melted. (Don't forget the millions of ounces of gold in Fort Knox which used to be coins!) Very few truly nice and desirable Liberty Head ten dollar gold pieces remain for today's collector. That is a fact and nothing can be done to change it. But that doesn't mean you can never own this desirable coin! A portion of these beautiful coins escaped destruction and they are available — *now!*

We recently purchased a small selection of Mint State 60+ Liberty Head ten dollar gold pieces from an area collector. This small group was almost evenly divided between two years; 1893 (1.8 million mintage) and 1907 (1.2 million mintage). While they remain, you may now acquire either date for only $345. But hurry. Quantities are limited.

Place your order today for a historic ten dollar Liberty Head gold coin — a coin spanning the decades of a growing America.

1893 Liberty Head Ten Dollar Gold Coin, Mint State 60+ $345.00

1907 Liberty Head Ten Dollar Gold Coin, Mint State 60+ $345.00

The Commemorative Page

Next to silver dollars, commemorative half dollars are perhaps the most popular of all United States coins. And why not! Just take a look at what they have going for them; **LOW MINTAGES, UNIQUE DESIGNS, HISTORICAL INTEREST** *and* **INCREASING VALUE.** Already the available supply of these coins is severely limited. If numismatic experts are correct, this situation can only become more acute in the future because many experts predict increasing collector and investor demand. Fortunately, our rare coin buyers foresaw what could happen and quietly accumulated a small supply of several different commemoratives. On this page, we are pleased to present three of these coins. Please give them your careful consideration as even our supply is rather small. Whether you are buying for yourself, or as a gift, **NOW IS THE TIME.** Order today.

1936 Elgin
Mintage: 20,015

This half dollar was issued to mark the 100th anniversary of the founding of Elgin, Illinois. Proceeds from the sale of this coin were used for the erection of a heroic Pioneer Memorial which is depicted on the reverse. The obverse portrays the bust of a man, representing an early pioneer. Because of its low relief, Mint State 65 specimens are not easily found. Fortunately, we still have a few pieces left from an original roll we recently purchased. While they last, we are making them available for only $130 each. Order your Elgin commemorative today!

1936 Elgin Commemorative, Mint State 65 ..... $130.00

1936 Albany
Mintage: 17,671

This commemorative was issued to mark the 250th anniversary of the founding of the city of Albany, New York. A beaver, representing the city of Albany, is on the obverse. The reverse depicts Peter Schuyler, Robert Livingston and Thomas Dongan, three gentlemen responsible for the signing of the city charter in 1686.

The specimens we have available are fully mint state and completely original. Its low mintage makes this coin very popular. Be certain to obtain yours today!

1936 Albany Commemorative, Mint State 65 ..... $205.00

1935 Spanish Trail
Mintage: 10,008

Human endurance is commemorated with this 1935 half dollar issued in honor of Spanish explorer Cabeza de Vaca. After failing to find "gold and riches", de Vaca and his men headed west from Florida for the Spanish colonies in Mexico. But a hostile environment and poor preparation took the lives of all but four of the original landing party.

Take this opportunity to add a lustrous MS-65 specimen of the Spanish Trail half dollar to your collection. Its low mintage and increasing value are just two reasons why you should order **NOW!**

1935 Spanish Trail Commemorative, Mint State 65 ..... $635.00

Branch Mint Gold — 1915-S Double Eagles

We did it again! Our buyers just obtained a small group of attractive, low mintage, underrated 1915-S Saint-Gaudens Double Eagles in Mint State 60+ condition!

When compared to other twenty dollar gold pieces, the mintage of the 1915-S is surprisingly small, just 567,500 pieces. Obviously, because of the vast gold meltings in the 1930's, the number of available specimens is probably much less. And of the pieces available, many have been circulated or damaged.

Also surprising is that this low mintage coin does not have a large premium attached to it. For just a few additional dollars over the price of a "common date", you can add the desirable 1915-S Double Eagle to your collection!

Recent market activity has shown a renewed interest in United States gold coins. Because of their large size and gold content (almost one ounce!), twenty dollar gold pieces are especially popular. That is why if you are considering adding the 1915-S Double Eagle to your collection, time is of great importance. Don't delay. Remember, we only have a few specimens in stock.

1915-S Saint-Gaudens Twenty Dollar Gold Coin, Mint State 60+ $465.00

Nicholas Romanov's Golden Roubles

In Imperial Russia, one of the first acts of a new Czar was to order new coinage. Once the coins were struck and distributed, the Czar's position was forever etched in his subject's minds and in the history of his nation. Unfortunately for Nicholas Romanov, also known as Czar Nicholas II, his was to be the last Romanov face to grace Russian coinage. After the revolution in 1917, literally tons of gold coins bearing the Czar's portrait were removed from circulation and destroyed.

Perhaps it is the wholesale destruction of the gold coins of Nicholas II which makes them so popular with collectors. Perhaps it is the hefty gold content. But one fact is secure: The 5 and 10 Rouble gold coin sets of Nicholas II are always among our most popular offers.

Featuring Czar Nicholas II on the obverse and the Imperial Eagle on the reverse, the two gold coins grade Very Fine or better. Carefully matched to insure your complete satisfaction, each two coin set is delivered in a custom holder.

Do not hesitate in placing your order for this popular two-coin golden set. Own Nicholas Romanov's golden roubles at today's favorable price. Send for yours today.

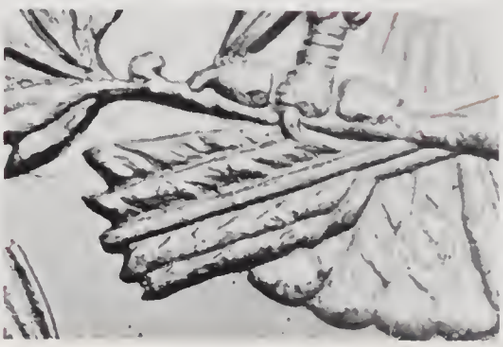
An Important Addition To Your Morgan Dollar Collection

— The 1879-S Concave Breast Dollar

In addition to the difference in breast feathers, there is a noticeable difference in the arrow feathers between the two varieties.

Concave Breast has parallel feathers.



Convex (the more common variety) has non-parallel feathers.

The 1879-S "Concave Breast" Silver Dollar is really a transitional coin because the reverse is the same as the one found on *1878-S, 1878-CC* and many *1878-P* Dollars. That is, the eagle's breast feathers are somewhat flat as compared to the breast feathers on later issues. There are other differences, too, particularly in regard to the positioning of the arrows' feathers around the eagle's claw.

After just a small number of 1879-S dollars were minted using the reverse dies from 1878, all subsequent San Francisco Morgan dollars through 1904 were struck with the convex (rounded) breast feathers. Both varieties are listed in *A Guide Book of United States Coins* (Redbook), so really this concave breast variety is considered a vital part of the Morgan Dollar series and should be in your collection.

We have a small number of these unusual "transitional" concave breast dollars available in both Mint State 60 and Mint State 65, so order promptly. Remember, too, these and all mint state Morgan and Peace Dollars we sell are backed by our exclusive SIX-MONTH MONEY BACK GUARANTEE.

1879-S Concave Breast (Also known as "Second Reverse") Silver Dollar

Mint State 60 ..... **$42.50**

Mint State 65 ..... **$52.50**

Note: With the rapidly rising market, this scarce variety is selling for less than twice the price of the much more common Convex (or Rounded) breast 1879-S in MS-65.

GOLD SETS FOR LASTING VALUE

Join the astute investors who have successfully protected their hard-earned dollars by owning gold. As the buying power of the dollar slips gold has risen strongly. For the sophisticated investor, we offer hand-selected sets of United States gold coins in two sets:

Designed by Longacre and Gobrecht, the Liberty Head gold coins were the standard of value in the Old West. Grading a minimum of Mint State 60, this set comes mounted in a custom holder.

U.S. GOLD SET # 2 — A complete mint state set consisting of a $20, $10, $5 and $2½ gold coin, as struck from 1907 until President Roosevelt recalled and melted all gold coins in 1933. The $20 and $10 were designed by famed sculptor Augustus Saint-Gaudens, while the $5 and $2½ are the only U.S. issues with *designs below the surface!* Each coin grades Mint State 60 or better. "If I had only . . ."

That's a common phrase we hear from collectors and investors when they refer to the selling prices of silver dollars from just two, five or ten years ago. "If I had only bought that coin for $15 five years ago instead of paying $75 for it today."

Most of us would give almost anything to be able to buy silver dollars at 1973 prices today, even though most of us probably thought prices were "too high" back then. Right? Fortunately, history has a way of repeating itself. Five years from now, *in 1983,* it is conceivable that today's prices will be looked upon as real bargains! For that reason, you should consider acquiring additional coins for your collection NOW!

Below is a listing of high quality Mint State 65 Silver Dollars from the famous Redfield Collection. Since we first introduced these coins to our customers in June, 1976, prices have risen dramatically due to the heavy demand. Who knows how much you will have to pay five years from now?

Direct From the Bag — 1899-O Dollars

In today's silver dollar market where prices are steadily increasing, it is rare to encounter any more than just a handful of mint state dollars of most dates. But our rare coin buyers have done it! Through their vast network of coast to coast contacts, our buyers have just purchased a full 1000 piece bag of 1899-O mint state Morgan silver dollars! And these dollars are now ready for *immediate purchase.*

The 1899-O dollar is a product of the historic New Orleans Mint — a Mint that struck its last coin almost seventy years ago. Once considered "common", this dollar, like *all* mint state Morgan dollars, has experienced an unprecedented increase in value during the last two years. Though still relatively inexpensive when compared to many other Morgan dollars, the 1899-O is not all that easy to find in roll quantity. That is, until now — at least for Paramount customers!

While this original bag remains, you may purchase a 20-piece roll "as they come" from the bag for just $415. Each roll will average MS-60+ or better. Naturally, because of the strong demand for mint state Morgan dollars, we do not expect these rolls to last very long. You know very well how much mint state silver dollars have appreciated in value in recent months. The demand for mint state specimens still continues! So if you would like to add a roll or two of 1899-O Morgan dollars to your collection — **ORDER TODAY!**

Low Mintage Golden Rarity

Now you can own a coin that has increased remarkably in value during the last five years! According to the 1973 edition of *A Guide Book of United States Coins* (Red Book) by R.S. Yeoman, the 1903 Louisiana Purchase commemorative gold dollar in Uncirculated condition listed for $100. Today, its MS-65 wholesale value is almost four times as much! Isn't that the kind of appreciation you want from your coins?

The Louisiana Purchase gold dollar — featuring President McKinley — was one of the first commemorative gold dollars ever struck by the United States. And boasting an original mintage of only 17,500, strong demand from collectors and investors has helped cause this coin to climb in value year after year. In addition to the increasing prices, Mint State 65 examples of this gold commemorative dollar are also increasingly difficult to locate as each year passes.

Take this opportunity to own a low mintage/high potential commemorative gold dollar in Mint State 65. We only have a few pieces in our multi-million dollar inventory, so order yours today!

Gone From Circulation

During the past few years, 1953-C series five dollar bills have disappeared from circulation. Rarely, if ever is this note seen! What happened to them? Where are they?

Undoubtedly, millions have been officially destroyed by the Federal government while others have been taken from circulation and saved by people just like yourself. The reason for this is obvious; 1953-C series five dollar bills are *Legal Tender* notes. These notes stand apart from others because of their *red* Treasury seals. So seldom are they seen, in fact, many people do not even know they exist! But despite this, Legal Tender notes are still surprisingly inexpensive.

Our rare currency buyer recently uncovered fifty *crisp uncirculated* 1953-C series five dollar Legal Tender notes. They were put away twenty years ago by a local collector and had laid undisturbed until we acquired them. Each and every one is crackling fresh and while they remain, you may add one of these desirable red seal notes to your collection for only $14.00. That's less than three times its face value!

Small size United States currency is quickly growing in popularity. NOW is the time to add this note to your collection — while the price is still amazingly low. Order today.

Mexican Gold

Foreign gold is on the move! Collectors and investors are once again turning to this exciting field. Already this increasing demand is being felt in today's marketplace. Now is the time to start your collection — before the demand grows any larger!

The perfect way to start a foreign gold collection is by taking advantage of this Mexican gold coin offer. This offer consists of four different *90% solid gold* coins from Mexico: the **2 pesos, 2½ pesos, 5 pesos,** and **10 pesos,** all in glistening mint state condition and mounted in a custom plastic holder. The obverse of each coin features the bust of Father Hidalgo, the "George Washington of Mexico", who sounded the call for Mexican independence in 1810.

When compared to *any* United States gold coin or even virtually any European gold coin,you will discover that Mexican gold coins are priced astonishingly low. This, plus the recent rise in the price of gold, has placed tremendous pressure on Mexican gold coins like those in this offer. Collectors are rushing to add these coins to their collections. Don't be left out! Order your four-piece Mexican gold set today!

Gold — you've heard so much about it. Now, it can be yours.

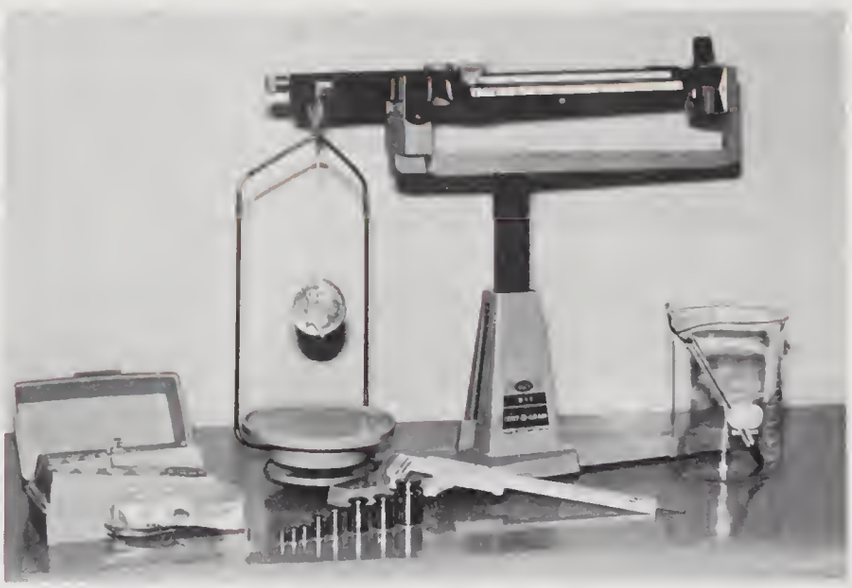
What Every Smart Numismatist Should Own



How well can you tell the difference between a counterfeit and genuine coin? Sometimes even the experts have difficulty! That is why you should arm yourself with the *Model 311 Counterfeit Detection Kit.*

With this Counterfeit Detection Kit, you can perform two very important tests on a coin whose genuineness is in doubt. The first is **weighing** the coin, using the *quality* Ohaus scale contained in this kit. By comparing your findings with the coin's official weight, you will have a very good idea as to whether or not the coin is suspect.

The second test you will be able to perform is **specific gravity.** By knowing the specific gravity, the coin's metallic composition can be determined. This is very important because many counterfeit coins are not composed of the same alloy as genuine coins.

Each *Model 311 Specific Gravity Scale and Counterfeit Kit* by Ohaus will consist of a scale, set of weights, beaker, thermometer, caliper, and the Ohaus Specific Gravity handbook. This entire kit is available for only $99 — a small price when you consider the alternative.

The *Counterfeit Detection Kit* is a valuable tool. If you are a serious numismatist, you owe it to yourself to have one!

Ohaus Model 311 Counterfeit Detection Kit, Complete and Postpaid..... $99.00

A Most Unusual Coin

Actual size is 18 mm.

In 1908, the United States began issuing a coin bearing a most unusual design feature. Unlike every other coin issued until that time by the United States, the main devices and legends of this coin are *incused*. That is, the design lies *below* the surface so when viewed from the side, the coin appears flat! This unusual coin is the beautiful 2½ Dollar Indian Head gold piece, issued from 1908 through 1929.

The 2½ Dollar Indian Head features on its obverse the bust of a proud and noble male Indian wearing a full feathered headdress. The reverse has the bald eagle perched on a bundle of arrows. This striking design has made it one of the most popular of all United States gold coins. And in brilliant mint state condition, it carries one of the smallest price tags of any United States gold coin — a very obvious incentive for both the collector and investor alike! Surprisingly though, in mint state condition, this coin is very elusive.

Countless millions of United States gold coins were melted after they were withdrawn from circulation in 1933. Undoubtedly, an untold number of 2½ Dollar Indian Head coins were included. Many of those which did survive have either been circulated or damaged through use in jewelry. This has resulted in a *very limited number* of mint state specimens available for today's collector. And because of its unusual design, the 2½ Dollar Indian Head gold coin is very difficult to grade. Therefore, when adding this coin to your collection, turn to the dealer with whom you have confidence — Paramount. We have in stock several examples of this coin in lustrous Mint State 65. Each is completely original and would be an attractive addition to any collection or portfolio. Place your order today. We guarantee you will be pleased not only with the beauty of this coin, but also with our conservative grading.
